## WITH FIXED BAYONETS

Strikers Were Met By Soldiers After Long and Weary March.

EXPEDITION WAS NOT SUCCESSFUL.

Marchers Were Halted on the Highway and Forced to Turn Back. McAdoo Women and Mother Jones in the Procession.

Lansford, Pa., Oct. 16.—About 1,500 men and 60 women and girls marched 18 miles from the south side Hazelton region during the night for the Panther Creek valley where they expected to close all of the 10 collieries of the Lehigh Coal and Navigation company, but just as the weary marchers were nearing their destination they were met on a mountain road by three companies of infantry and at the point of the bayonet were driven back four miles to Tamaqua and dispersed. Another crowd of 800 men from the north side of Hazelton also marched here and succeeded in closing the company's No. 1 colliery at Nesquehoning, near Mauch Chung, before it was scattered. The presence of the soldiers was entirely unexpected and the strikers were much crestfallen that they failed in accomplishing the object of their long march. It was probably the most exciting morning the Panther creek and Nesquehoning valleys have ever experienced. Strikers were scattered over the various roads, and companies of soldiers were scurrying in all directions heading off the marching men. The troops were patient with the strikers, while the labor men were careful not to commit overt acts in the presence of the troops. For a moment just after the two forces met on the road in the darkness it looked as if a clash would come, but those who had charge of the strikers prevented a conflict.

The march on Panther Creek valley was on the strikers program for several days. The United Mine Workers ever since the strike started have been attempting to close the collieries of the Lehigh Coal and Navigation company in this region. Organizers were constantly in the region, but as a rule they did not meet with much success, so it was decided to use stronger methods to get the men employed in the 10 mines out on strike. Accordingly it was arranged that a big demonstration should be held in the valley. It was to have been held Monday, but owing to the heavy rain and muddy roads it was called off until Tuesday. Those who took part were strikers from McAdoo, Yorktown, Bunker Hill and Silverbrook from the south side of Hazelton and the Freedom, Drifton, Jeddo and Beaver Meadow strikers from the north side. The women and girls all came from McAdoo, which is the only borough in the Hazelton region with organized female marchers.

Ordered to Turn Back.

Five carriages containing newspaper correspondents who had been trailing along at the rear of the procession were requested to take the lead so that they would not interfere with the plans of the strikers. Following the newspaper men came the other conveyances containing the McAdoo women, then followed a long line of Hungarians, Italians, Poles, Slavs and English-speaking mine workers. At a point about a mile from Coaldale there is a sharp turn in the road and as the newspaper men rounded it there came a command of "halt," and about 30 feet in front of them stood solid rows of soldiers who were stretched across the road with bayonets fixed. Sheriff Toole of Schuylkill county was with them. The commander of the troops speaking to the waiting crowd said: "In the name of the people of the state of Pennsylvania, I command you to disperse and return whence you came."

The strikers began to protest that they could not be stopped on a public highway and many of them showed a disposition to resist the soldiers. The officers in charge of the troops, however, kept his men in position and the strikers returned toward Tamaqua.

"Mother" Jones, who was in the crowd, vehemently protested against the action of the troops in stopping the marchers, but she was shut off and ordered to move on. The McAdoo women had to be almost pushed along, so slowly did they walk. They continually jeered at the soldiers, calling them all kinds of names, and threatening them with punishment if they should dare to visit McAdoo. It took from 3 o'clock until after 6 to drive the crowd back to Tamaqua.

The soldiers were eight companies of the Fourth regiment which has been

stationed at Shenandoah. General Gobin was in command.

When the soldiers had driven the strikers over the mountain a company was sent to Tamaqua to quell any disturbance the scattering strikers might stir up there. Further along the road a company was deployed to protect a colliery while the marchers were passing it. The three companies met at Tamaqua and scattered the marchers.

While all this had been going on the north side marchers had everything their own way in the Nesquehoning valley. They persuaded enough men to remain away from the Lehigh Coal and Navigation company's No. 1 colliery to cause it to be shut down. General Gobin sent two companies of soldiers there and restored order.

END IS IN SIGHT.

So Think Operators Who Are Preparing to Resume Work.

Seranton, Pa., Oct. 16.—Assurance of the end of the strike of the anthracite miners seems certain in view of the preparations being made all through the Lackawanna valley for the resumption of work. The coal companies are crowding their mine sidings with empty cars and the end of the week will find thousands of cars in place where formerly only hundreds were to be seen. This is done in order to be prepared for the great demand for coal which will necessitate the running of the mines and breakers to their utmost capacity for weeks in order to get stock ahead to meet the winter demand.

Becoming Impatient.

Wilkesbarre, Pa., Oct. 16.—Some of the striking mine workers in the Wyoming valley are getting restless over the delay in settling the strike. Many of them expected to be at work by Wednesday but it now looks as though the fifth week would go by without operations being resumed. The operators here are still of one mind and say "If the men want to return to work at the 10 per cent increase originally offered they are at liberty to do so."

Couldn't Coax Strikers Back.

Shamokin, Pa., Oct. 16.—Despite an active canvass by a number of men to induce miners to go to work at collieries between here and Hickory Ridge, none reported for duty and the persons circulating petitions asking men to resume work pending a settlement of the terms of the Seranton convention have been disappointed.

Soldiers Very Busy.

Coaldale, Pa., Oct. 16.—The local union of the United Mine Workers met early and prepared to welcome in a body the marchers from Hazelton and vicinity, but the soldiers got there before the strikers and dispersed the meeting, ordering the men to their homes.

Strikers Arrested.

Tamaqua, Pa., Oct. 16.—Between 25 and 30 men were arrested by soldiers, and all but a few of them were discharged. They were accused of carrying concealed deadly weapons and inciting to riot.

Demand For Troops.

Hazleton, Pa., Oct. 16.—Frank Pardee of A. Pardee & Co., made a demand on the governor for troops. The Lehigh and Wilkesbarre Coal company has also requested that soldiers be sent to McAdoo.

Blackburn's Son-in-law Suicided.

Washington, Oct. 16.—Thomas F. Lane, son-in-law of ex-Senator Blackburn, committed suicide at his home here. Mr. Lane shot himself in the presence of his little daughter, while his wife was resting on a couch in an adjoining room. Death was almost instantaneous. Mr. Lane was the American representative of the London ordnance firm of Vickers Sons & Maxim. He was well-to-do, prominently connected and a familiar figure in Washington society. It is said he was driven to the act by brooding over his ill-health. He was told some time ago that he had bright's disease, which preyed on his mind. Senator Blackburn was in Hagerstown, Md., when the news of the suicide reached him. He had been on a campaign tour of the state. He left as soon as possible for Washington and it is likely that the occurrence will force him to abandon any further active work in the campaign.

Long Lost Landed.

San Francisco, Oct. 16.—The British ship *Lansing*, which left Port Blakely June 1, bound for Port Pirie, Australia, is now out 136 days and 20 per cent insurance has been offered on her. She has a cargo of nearly 2,000,000 feet of lumber. A story is current in shipping circles that the crew mutinied, killed Captain Chapman and located on Bonham Island, in the South seas, after wrecking the vessel, but the report lacks verification.

## ROOSEVELT ON DECK.

SIDE LIGHTS ON THE CAMPAIGN.

Hanna Hoarse With First Day's Speaking But He Does Not Let Up—Stevenson Joins Bryan in New York—Jones' Letter.

Hamilton, O., Oct. 16.—At this place, 25 miles from Cincinnati, Governor Roosevelt made his first stop Tuesday on his tour of Ohio speaking to a large crowd. The speaker's stand was a block from the train and thither the governor was escorted by Governor Nash, Food Commissioner Blackburn, L. C. Laylin, candidate for secretary of state and others. A feature of the program here was the presence on the platform of the mother of Captain Huston of Oklahoma. Captain Huston was an officer in Colonel Roosevelt's regiment during the war with Spain, and on the breaking out of the trouble in the Philippines he went thither, where he died. Governor Roosevelt shook hands with Mrs. Huston and escorted her to a seat at his side. "I recall your noble son," he said, "and knew him well as a brave man and soldier." "Yes, Governor," was the reply, "I gave one son to my country and would give another if I were blessed with one." Captain Huston's body was buried here.

At Dayton there was a public reception at the Beckel hotel, and afterward the governor was escorted in a parade to the fair grounds where he addressed a large crowd. Stops had been made at Middletown and Miamisburg, where the governor spoke to large audiences, at the latter place using the front porch of the Miami Steel company's main office as a platform.

Governor Roosevelt and party reached Columbus after 7 o'clock. There was a big procession, which escorted him to the Auditorium, where he and Senator Foraker and others spoke.

Bryan in New York.

New York, Oct. 16 W. J. Bryan reached Utica at 8:58 a. m. en route from Cleveland to New York city, where he made his first speech in the state at night. Mr. Bryan was accompanied from Cleveland by Mayor Jones of Toledo, who will be with him during the greater part of his New York tour. He was joined at Cleveland by Norman E. Mack, Democratic national committeeman for this state. Mr. Bryan entered his stateroom immediately on returning from the last of his Cleveland meetings and did not emerge therefrom until breakfast was announced. There were several calls for him by crowds on the way after leaving Cleveland, but he did not respond. It had not been his intention to make any speeches on his way to New York city, and the train stops were not long enough to permit his doing so if he desired. Mr. Bryan prepared no speech for New York, but talked extemporaneously in all his meetings there. Mr. Bryan expresses his gratification on the success of the Ohio meetings. A large crowd gathered at the station at Albany to see Mr. Bryan as he passed through. He was joined there by Elliott Danforth and James Oliver. Mr. Bryan arrived at the Grand Central depot at 2:55 p. m., and was greeted by an enormous crowd. Mr. Bryan is in good health, but his voice is somewhat hoarse. He spoke at night at Madison Square Garden, Cooper Union and Tammany hall.

Circular to Democrats.

Chicago, Oct. 16.—Chairman James K. Jones of the Democratic national committee and William R. Hearst, president of the National Democratic club, have issued the following circular: To Democratic clubs: In the free exercise of the right of suffrage lies the safety of the republic. Every patriot, every honest man, is interested in preserving this right at all hazards. Will you, therefore, every man of you, please report promptly to one of us every instance coming to your knowledge of any attempt to coerce or intimidate any voter, by any employer, whether a single person, a company or corporation, and whether attempted by threat, by the pretence of orders received conditioned on the election of McKinley or otherwise? Every such offender deserves, like Cain, to be a "fugitive and a vagabond" on the face of the earth and the public ought to know who they are.

Hanna in Minnesota.

Waseca, Minn., Oct. 16.—Hoarse from his efforts Monday, Senator Hanna began his speechmaking in Minnesota at an early hour. The first stop was at Owatonna, Minn., in Congressman Tawney's district. In his speech Mr. Hanna referred to President Mc-

Kinley as the Moses of the Republican party. Waseca was the next stop. Mr. Hanna was interrupted several times by people in the crowd, who asked questions about various trusts. Mr. Hanna denied there was any coal or wire nail trusts, but admitted amid laughter there was an ice trust. A stop of 45 minutes was made at Mankato, beyond which the itinerary included brief stops at New Ulm, Tracy and Marshal, Minn., with an evening meeting at Watertown, S. D.

YOUTSEY'S TRIAL.

Unconscious Body in Court—Judge Refused to Dismiss Case.

Georgetown, Ky., Oct. 16.—When Youtsey's trial was resumed Youtsey's bed was pulled up to the door in plain view. Wharton Golden, W. H. Culton, Arthur Goebel and Lieutenant John Ricketta testified. Colonel Crawford then made the statement to the jury for the defense. Youtsey was reported worse at noon, his temperature having increased and his jaws so tightly closed that no food could be given him.

At the afternoon session the defense moved to discharge the jury and continue the case because the defendant was still unconscious and in a worse condition than before. Judge Cantrell overruled the motion.

The defense asked that Youtsey be called as a witness. The sheriff called Youtsey, but he did not answer. The defense asked that he be brought into court.

"He is already in court," said the judge.

"We want him on the witness stand," said Colonel Nelson.

"Very well, bring him in, Mr. Sheriff and put him on the stand," said the judge. The deputies and guards brought Youtsey in on his bed and set it down in front of the jury. Colonel Nelson asked Youtsey several questions, but got no response, the defendant lying as one dead on his bed.

"We can get no response from the witness," said Nelson.

"Very well, let him stand aside," said the judge, and the bed was carried back to the jury room.

Colonel Nelson made another motion to discharge the jury because the defendant was not really in court facing his accusers, but simply an unconscious body. The judge said the law provided that before he could discharge the jury the defendant must be adjudged a lunatic.

FIGHTING WITH FILIPINOS.

Three Americans Killed? Several Were Captured—Treachery of Police.

Manilla, Oct. 16.—A detachment of 20 men of the Twenty-fourth regiment while engaged in repairing telegraph wires Oct. 10 at a point near San Jose, Nuevo Ecija province, Isle of Luzon, were set upon by 200 Filipinos and were overpowered and scattered. Seven of the Americans reached San Jose, but it is probable the remainder were captured.

The Filipinos surprised a party of scouts of the Forty-third infantry at a point three miles from Takloban, Leyte Island, killing three Americans at the first volley. Two escaped and gave the alarm, but the enemy succeeded in evading their pursuers. The native police at Takloban had conspired to surprise the Americans. The bodies of the dead soldiers were badly mutilated.

Robbed on a Train.

Marietta, O., Oct. 16.—Three men held up and robbed John Kopte, a Russian Pole, on a Baltimore and Ohio passenger train east of Athens. Kopte had been in America one year and was returning to his family at Bremen, Germany, with his earnings in the coal mines at Corning, amounting to \$100. The robbers left him penniless. They escaped.

Cement Exploded.

Detroit, Oct. 16.—An explosion of rubber cement occurred at 1:30 p. m. in the building at 15 Jefferson avenue, occupied by Wittichell Sons & Co., shoe firms. One man jumped from an upper window and was instantly killed. A number of others were injured and one is missing. The building was completely gutted by the fire that ensued.

Kurds Becoming Troublesome.

Constantinople, Oct. 16.—The tribal risings among the Kurds are assuming threatening proportions. The authorities are greatly concerned. The troops have had to intervene in the Diarbekir district where a number of Christian and Mussulman villages were razed.

Indians Dissatisfied.

Fort Worth, Tex., Oct. 16.—A small band of disgruntled Creek Indians in the territory is reported to be preparing to give the government trouble. They oppose paying the tribal taxes and will fight the measure. The Indian agents are preparing for any emergency. The Indians want the old custom to continue in vogue.

## ALL THEY COULD GET.

American Looters Didn't Overlook Much at Tien Tsin.

BIG SUM OF GOLD WAS TAKEN.

Things of Value From Other Sources Swell the Volume to Immense Value—Li Hung Chang Wants the Gold Given Back.

Washington, Oct. 16.—The American share of the loot at Tien Tsin is larger than at first reported. It has been understood that all the Americans took after the capture of Tien Tsin was gold amounting in value to \$278,000. This report arose from the fact that Li Hung Chang asked General Chaffee to restore that sum to the Chinese government. It now appears that this \$278,000 was only the value of gold coins and gold bars taken from the Chinese treasury at Tien Tsin and apparently it was only the money which concerned Earl Li as a government official.

Things of value were also obtained from other sources and it is now reported that the total value of the loot will reach a figure about \$100,000 in excess of the amount originally reported. The gold coin and gold bars taken from the treasury were melted by order of General Chaffee. Nothing is yet known about similar seizures in Peking or at points along the line of march. The total value of the seizures will probably be very high. Li Hung Chang's request for the \$278,000 taken from the treasury has received no reply. There is considerable doubt whether the United States is entitled to keep this gold, whatever its amounts may finally determined to be, because this government has been proceeding on the theory that no war exists in China. Nevertheless it is extremely unlikely that the gold will ever be returned to China, even that part of it identified and claimed by Li Hung Chang. It may not be held as spoils of war for the reason given, but it will probably be held as part payment of the indemnity which America will demand.

Americans Endangered.

New York, Oct. 16.—A dispatch from Hongkong says Americans and their extensive interests in the far south of China are imperilled by the rebellion in Kemang Tung province. Already the revolt is grown to such proportions that the Chinese are unable to suppress it. Mr. Wildman, United States consul at Hongkong, has gone to Manilla to confer over the critical situation with General MacArthur, the commander-in-chief of the American troops in the Philippines.

All Accept French Plan.

Paris, Oct. 16.—At a cabinet council held at the Elysee palace, M. Delcasse, minister of foreign affairs, announced that all the powers have accepted the French note as the basis for negotiations. He added that he had been informed Li Hung Chang has just ordered the Black Flags and Kwang-si troops, which are traversing the province of Hu-Nan on their way to join the court at Shan-fu, to abandon their march and return to Canton.

Chang Was Chopped.

Washington, Oct. 16.—Confirmation has been received here of the execution July 20 of Chang Yen Hoon, the former Chinese minister to the United States. The empress dowager, taking advantage of the late reign of terror at Peking, and knowing Chang's influence with the emperor ordered his execution by decapitation. Chang was considered one of the ablest men in China. He had been decorated by Queen Victoria and by the emperors of Russia and Germany.

Approved by Ministers.

Paris, Oct. 16.—A dispatch from Tien Tsin, dated Oct. 15 says the British ambassador, being informed of the basis of negotiations proposed by M. Delcasse, called a meeting of the diplomatic corps in Peking. The French propositions were unanimously approved. United States Minister Conger alone raised an objection, not against the propositions, but against the method of procedure.

Paoting Taken.

London, Oct. 16.—A dispatch from Shanghai states that Paoting fu was captured Saturday by the force of 7,000 allies sent from Peking for that purpose.

Stevenson Joined Bryan.

Camden, N. J., Oct. 16.—Hon. Adlai E. Stevenson, who spent the night as a guest of ex-Judge Carrow in Merchantville, N. J., left here at 9 a. m. for New York to participate in the Bryan demonstration at night.

### BOURKE COCHRAN ON JEFFERSON AND McKINLEY.

"Jefferson took territory to avoid war; McKinley is making war to take territory. Jefferson took contiguous territory to do justice and avoid the provocations of war in the future; McKinley is taking useless and remote territory, which, if he succeeds in subduing, will cause future contests without number. Jefferson took territory to incorporate into a union of states and extend over it the beneficent influence of our Constitution and the glory of our flag; McKinley is seizing territory, not to expand our Constitutional government over it, but to turn it over to officeholders, to be exploited and plundered by syndicates and favorites."

It's rather hard to understand how any man professing Democracy and decency can vote for a party that sanctions and indorses all the crimes that Taylor and his gang committed at Frankfort last winter.

The recent Methodist Conference at Gallipolis found that the white paper trust had gouged the Christian publications in the United States out of over one million dollars the last year by advancing prices.

How do you like being robbed daily by the trusts in order that they may pay a dividend not only on their actual investment but also on their "watered" stock? If you like it, vote for McKinley and Pugh, the friends of the combines.

If McKinley is re-elected, says the Boston Traveler, it will be taken to mean the indorsement by the people of the country of that policy and that action which Mr. Hoar himself has told us, if a liberal to, will "mark the beginning of the downfall of this republic."

We commend the answer of General Joseph Wheeler, when asked about his politics, to some who have held office by the grace of Democratic votes and who are classed now in the doubtful column. General Wheeler said he "had received all the political preferment he ever had at the hands of his Democratic fellow citizens, was always a Democrat and would vote the Democratic ticket."

THEO. MARBURG, a Baltimore capitalist, and brother of William Marburg of the tobacco trust, delivered a speech on Tuesday at a meeting of the commercial travelers in that city Monday. He said in part:

"I fear I have little consolation to offer the traveling man. There is nothing that at present indicates his rehabilitation.

And then Mr. Marburg launched forth in a defense of trusts and had the gall to advise the traveling men to vote for the party that has fostered and builded up the combines. In other words, this capitalist and trust advocate would have a man who has been robbed and who is still being robbed to turn about and tell the thief he's all right.

### SCOTT'S SEVERE CHARGE.

Believes Goebel's Death Was Decried at Conference in Which Yerkes Was a Participant.

DANVILLE, Ky., Oct. 15.—James Andrew Scott, of Frankfort, addressed a large crowd at the court house this afternoon. He was introduced by Attorney General Robert J. Breckinridge. Mr. Scott's speech was a vigorous arraignment of the Republican party in Kentucky, and was particularly severe on the nominee for Governor. He said:

"On the night of the Colson-Scott tragedy at Frankfort, there was a secret conference at the Galt House in Louisville, and Mr. Yerkes was at that conference. Every newspaper report of that conference foreshadowed the death of William Goebel, and I want to say to you, and I know as much about it as any man on the face of the earth, I believe on that night the death of William Goebel was ordained."

### FOR BRYAN

President Parsons, of New York University, Has Declared Himself.

New York, October 15.—President Albert Ross Parsons, of the University of the State of New York, has cast his lot with William Jennings Bryan and the anti-imperialists. He became an honorary member of the New York State Association of Anti-imperialist Clubs today. Mr. Parsons is a practical student of American history.

Having been informed of the objects of the National Association of Anti-imperial Clubs and the State and city associations, he wrote to Secretary C. C. Hughes, of the national association, to express his thorough concurrence with the principles of anti-imperialism.

## "ATHEISTIC FOOLS."

Synopsis of a Sermon on This Subject Sunday Night by Howard T. Cree, at Christian Church.

The second of the series of sermons on special subjects at the Christian Church this month was preached Sunday night by the minister, Howard T. Cree. "Atheistic Fools" was his subject. A large audience was present. A synopsis of the sermon follows:

"The fool hath said in his heart there is no God." This was the exclamation of Israel's great King, who looked through Nature up to Nature's God and burst forth with the inspired declaration. "The heavens declare the glory of God and the firmament sheweth His handiwork." The expression "Atheistic Fools" is used, not because an atheist is utterly lacking in intelligence, but one who does not properly weigh the evidence presented to him. It is the same word used by the Master when He told of him to whom God said, "Thou fool, this night thy soul shall be required of thee." A well-reasoning man will accept that theory in life which explains the greatest number of known facts. Men can be divided into but two classes—atheists and theists, the one believing in mind as the producing cause in creation, and the other that all things are but the varying expressions of mere energy. An Ignorant of God makes one an atheist as much as the denial of divine existence. A theist, to prove his case, must depend on inferential and analogical reasoning, which is considered, however, a legitimate process in every other department of life. As reasons for the theistic belief let us consider:

(1.) It is an explanation of creation. Confronted by the innumerable things of life, not only to scientist, but to every student comes the query, whence? A time was when things were not, whence came they? What the first great cause? Though we accept the nebular theory of creation and trace all back to a mere mist with millions of atoms in motion in process of forming the worlds, what great cause imparted the motion? Either, with Ingersoll, must we exclaim, "It just happened so," or take the more rational position of Thomas Paine, who, realizing that everything carries with it the evidence that it was not self made, affirmed, "I believe in one God—the Cause of all things."

(2.) It explains the origin of life. Herschel's great theory of "spontaneous generation" has been too well exploded to admit of serious consideration. Science has imitated everything in nature save the germ of life. Science can make a grain of wheat indistinguishable from nature's product in every way save that it has no germ of life and will not grow. "Life is the gift of life." Even if evolution could explain the process of growth, it cannot tell whence came original life. Only the Bible gives the proper solution, that, "God breathed into man the breath of life." Hence do we see that there must have been an ulterior cause of creation.

(3.) That this cause was an intelligent being may be drawn from the great "design argument," used so masterfully by Bishop Paley and Bishop Butler. As the mechanism of a watch proves the existence of a designer, so the results of creation display the evidence of a Supreme wisdom in the great Architect of the Universe.

(4.) It explains the moral nature of man. Should evolution prove all its devotees claim for it as an explanation of physical development, it yet stands before a closed door which even Darwin admitted he could not open—the moral nature. This is the great stumbling block to every materialistic evolutionist. This divine monitor in man must have an author; it is a law of moral nature. The Hebrews have Moses as their law-giver; the Greeks, Solon and Lycurgus; the Romans have Justinian, and the law of right in man has its author, God.

As reasons against atheistic belief might be cited:

(1.) It discredits evidence. He who dogmatically asserts there is no God arrogates to himself the position of possessing absolutely all ascertainable knowledge in the universe, a position the great Tyndall would not occupy. It leaves the world to mere chance, and makes law but an arbitrary matter. To an atheist the world becomes an enigma; to the believer in God the unfolding of a wonderful story.

(2.) Atheism begets anarchy. Even secularism begets atheism, according to the profound conviction of Mr. Chas. Bradlaugh, the great exponent of secularism in England, and this in turn begets anarchy. Said Bradlaugh, the founder of the anarchist movement: "The first lie is God, the second lie is Right. Let your own happiness be your only law." But as some one has said, "If the world is run without intelligence, why not society without brains?" Naturally, God out of mind and heart means God and His truth out of the life, and each one doing as seemeth right in his own eyes, which makes a sliding scale of humanity and admits the Boxer of China to be as right in the destruction of women and children as a Christian's defense of them.

(3.) Atheism makes utility the test of morality, a doctrine as dangerous and more so than the most deadly disease in a city. As said Voltaire: "If there was no God it would be necessary to invent one in the interests of humanity. An atheist of any capacity would be more dangerous to any community than the most blood-thirsty enthusiast." Little did he think that these words were prophetic in their meaning, for the legitimate outcome of atheistic principles made the darkest page in human history, the fearful reign of terror in France. The leaders of the French revolution were the disciples of Diderot, Rousseau and Voltaire, and Thomas Paine took part in their deliberations and helped to draw up the constitution of the convention. They legitimated God out of existence and proclaimed Reason the only divinity, and ushered in the darkest era through which France has ever passed and from which to-day she has not recovered. More than three million lives paid the penalty of inaugurating a reign of so-called reason. And yet this is what Ingersoll wanted Congress to do, to do away with God and sweep away everything that shows the spirit of Christianity.

Atheism has never been a success. It could not stand persecution, but it has had none. Free and untrammelled it has not even maintained a foothold it once had gained, while Christianity has suffered as no other religion, yet has been as a grain of mustard seed and a lump of leaven. Neither can atheism give comfort in affliction—a time when religion is most needed. Even Ingersoll could not dispel the melancholy at his brother's grave. Atheism has never elevated anyone, has inaugurated no missionary enterprise, has made no sacrificial offering, nor does it promise any hope of immortal life.

Said Herbert Spencer, "The atheistic theory is not only unthinkable, but if it were thinkable it would not be a solution."

Mr. Cree will preach next Sunday night at 7 o'clock on "A Rational Religion."

### THE "TERRIBLE TEDDY."

An Independent Democrat's Opinion of Col. Roosevelt and His Speech Here Monday.

I am an independent Democrat. I wear no collar. I call no man master. I staid in town Monday for the first time in months to hear the Republican speakers. Wilson was all right and made Democratic votes, as well by what he said as by the men who sat on the platform by him. But the interest centered in Theodore Roosevelt, the candidate for Vice President on the Republican ticket. I had seen and heard for fifty years the most of the celebrated orators, preachers and lecturers in the U. S. I took special pains to hear Teddy, to get near and to see him. To say that I was disappointed, but feebly expresses the result. I was simply disgusted. He had a grand audience so far as numbers were concerned, but he mistook its character and shot underneath even them. He evidently did not know Kentucky people. The cow and calf story he told had whiskers on it when Methusalem was a baby. Its vulgarity and obscenity were patent. Teddy would make a good second clown in a circus. There were ladies in his audience, but luckily they were of too pure minds to catch the drift of his dirty joke. I thank my God, day by day, that Kentuckians are not such as represented in the papers. And how a Kentuckian who heard Roosevelt's speech can fail to vote for Bryan and Stevenson I fail to see. I am a personal acquaintance and friend of Stevenson, and if he is as I knew him he would rather die than soil his lips with the story Roosevelt told in Maysville.

The congratulating party was laboring under the delusion that Frank had changed politics.

Messrs. Murray and Mack will present their successful and famous farce-comedy "Finnigan's Ball" at Washington Opera House and it is said it will hardly be recognized by its old friends when it reappears in a new garb in this city on next Saturday night. The "ball" has been supplied with an almost entirely new outfit of fetching features. Among them are clever comedians, new songs, new dances and one of the strongest list of farce-comedy performers ever engaged for this style of amusement. Seats on sale Thursday morning at Nelson's.

### Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.

### HON. AMOS CUMMINGS.

The Eloquent New York Congressman Coming.

He Will Speak at the Court House This Evening at 7:30 O'Clock.

Hon. Amos Cummings, of New York City, will speak at the court house this evening at 7:30 o'clock.

Mr. Cummings has been a member of Congress the last twelve years, and ranks among the Democratic leaders of the House. He is an able and eloquent speaker, and every Democrat of this city and surrounding country should make it a point to hear him. The public cordially invited. Seats will be reserved for ladies.

### A Book Social.

The Y. P. S. C. E. of the Christian Church will give a book social at the church next Friday evening for the benefit of the Sunday school library. The members of the church and all other friends of the school are invited, and each is asked to contribute a book suitable for the library. This will be the only admission asked. Rev. Dr. J. C. Molloy has kindly consented to deliver his lecture on "Books." Light refreshments will be served free.

Mr. P. J. Murphy's new jewelry establishment, in the building formerly occupied by the First National Bank, is the largest, the most complete and the handsomest to be found in Northern Kentucky. It ranks with the best to be found even in the larger cities. The store is fitted with marble floor and finished throughout with attractive colors. As for his line of goods it is the most complete and elegant to be found in any of the city stores. Mr. Murphy extends a cordial invitation to his many patrons and the public generally to call and see his new store and line of goods.

The examining trial of Wm. Applegate charged with striking John Paul with a slungshot came of Tuesday before Judge Wadsworth. The warrant was dismissed.

## VALUABLE INFORMATION!

### IT IS A FACT—

That according to the best medical authorities asthma and rheumatism are caused by an excess of uric acid in the blood.

### IT IS A FACT—

That uric acid is a product of imperfect tissue changes and can only be eliminated through the kidneys.

### IT IS A FACT—

That by eliminating this acid from the system the acknowledged cause of asthma, hay fever and rheumatism is removed.

### IT IS A FACT—

That BOND'S SPECIFIC cures by its great purifying action on the liver and kidneys, thus enabling them to perform their normal functions properly and carry off the excess of acid from the system.

### IT IS A FACT—

That all asthma and rheumatism cures contain dangerous drugs such as chloral, cocaine and morphine, and produce only temporary relief.

### IT IS A FACT—

That BOND'S Asthma, Hay Fever and Rheumatism Cure is absolutely free from dangerous drugs, and is purely a vegetable compound and can be taken with impunity by any one, from the babe just born to the oldest man or woman.

### IT IS A FACT—

That BOND'S SPECIFIC will most positively cure asthma, hay fever or rheumatism in spite of your incredulity.
